FOR IMMEDIATE PRESS RELEASE

TAKE Solutions' Team Announces Conatus Pharmaceuticals the Winner in PharmaReady Best Case Study Contest

*Winning submission highlights customers experience in searching
for an eSubmission solution*

Raleigh, N.C. - February 26, 2008 — Today, TAKE Solutions' PharmaReady team announced Conatus Pharmaceuticals the winner in its best case study contest. Of the numerous award submissions, Conatus won by presenting a detailed look into their search for an eSubmissions solution, including their initial criteria, marketplace comparisons and the end results.

“Conatus’ experience with the PharmaReady reflects what our customers are experiencing across-the-board, including; lowest total cost of ownership, ease-of-use, ease-of-implementation, and regulatory compliance” stated Robert MacDougall, Executive Vice President, Sales and Marketing.

Conatus was searching for a tool that could organize and submit their hundreds of legacy documents. After thoroughly evaluating several competitive solutions, Conatus based its decision to license PharmaReady on the following key items:

- Total cost was almost an order of magnitude less
- Implementation was much simpler because it is designed for the pharmaceutical industry
- A hosted solution was feasible
- The implementation of an eDMS solution was essential before our successful entry into the clinic.

According to Conatus, PharmaReady has proven to significantly decrease time and effort in locating legacy documents and study-related materials. Additionally, PharmaReady has proven invaluable for organizing their storing of 16,000 page submission. This along with, PharmaReady’s “virtual document” functionality has allowed them to combine already uploaded documents into a composite file, increasing efficiency in filing amendments to their IND.
