FOR IMMEDIATE PRESS RELEASE

TAKE Solutions' Life Sciences Division Announces Multi-client Adoption of PharmaReady™ Version 4.1

Raleigh, N.C. – November 12, 2008 — TAKE Solutions' Life Sciences division announced today a significant increase in client wins, following the release of PharmaReady™ Version 4.1 that offers powerful new features and modules to its fully integrated, web-based suite of products.

“The PharmaReady eCTD solution came at the perfect time for Banner Pharmacaps. Banner successfully utilized PharmaReady 4.1 for our recent eCTD submission to FDA”, stated Dana Toops, Executive Director, Regulatory Affairs and R&D, Banner Pharmacaps. “TAKE Solutions, Inc.’s knowledge and experience in both regulatory matters and information technology has made them an ideal business partner for us”, continued Mr. Toops.

TAKE Solutions' latest 4.1 version of PharmaReady is being implemented globally by numerous life sciences organizations including:

- Banner Pharmacaps; Global Pharmaceutical, High Point, NC, Netherlands
- INC Research, Inc; Global Clinical Research Organization, HQ Raleigh, NC USA
- Dermal Laboratories; Dermatological R&D and Marketing, United Kingdom
- Sangart; Global Biopharmaceutical, San Diego, CA, Stockholm, Sweden
- Optasia Medical Ltd; Medical Device Imaging Software, Manchester, UK, Boston, MA
- Xanodyne Pharmaceuticals; Specialty Women's Health Drug Company, Newport, KY
- Insmad; Biopharmaceutical, Richmond, VA, Boulder, CO
- Synarc; Central Radiology Clinical Trials, Copenhagen, Denmark; San Francisco, CA

“Following our review of several industry solutions we concluded PharmaReady to be the most suitable eCTD solution on the market today to meet Banner's needs. Several key factors considered in selecting PharmaReady was their responsiveness to our questions and needs, ease of use of the tool and the fact that PharmaReady meets both FDA and EU regulations. Banner will use this tool for our Global regulatory needs where eCTD submissions are accepted. Any life sciences organization that's under-going plans for an

electronic submission should give the TAKE Solutions’ team and their PharmaReady™ eCTD solution careful consideration”, explained Mr. Toops.

In 2003, PharmaReady was first introduced as an FDA- compliant Document Management System in conjunction with Microsoft Corporation at the annual DIA Meeting in Washington, D.C. “From the beginning, PharmaReady was specifically designed for the regulated life sciences industry. Five years and scores of satisfied customers later, our focus still remains the same”, states Robert MacDougall, Executive Vice President, TAKE Solutions.

[About PharmaReady™](#)

[PharmaReady](#) is a fully integrated web-based product and services solution suite including [Document Management](#), [Training Records Management](#), [Structured Product Labeling](#) and [Submission Services](#).
