FOR IMMEDIATE PRESS RELEASE

TAKE Solutions' Life Sciences Division Announces Global Expansion of its Submissions Assurance™ Program

Raleigh, N.C. - March 25, 2008 — Today, TAKE Solutions' Life Sciences division announced the global expansion of its highly successful [Submission Consulting Services](#) unit to include North America, Europe, Asia/Pacific and Australia. The newly redesigned services unit is in response to market demand for its high-value Submissions Consulting services to provide direction and assistance in compiling error free submissions.

TAKE Solutions' Submissions Assurance™ Programs will now offer two uniquely targeted Submission Assurance delivery models. One Submissions Assurance™ offering will be available to TAKE Solutions' customers that license TAKE Solutions' [PharmaReady™ eCTD](#) software solution. A separate [Submissions Assurance™](#) delivery model is available to customers that want to fully outsource this service without the requirement of licensing any software. In this instance, TAKE Solutions' submission services group will utilize its PharmaReady™ eCTD software solution, internally, as part of a fully outsourced solution.

“The FDA mandate for regulated life sciences organizations to submit IND's and NDA's electronically, is requiring these fast-moving organizations to seek assistance from trusted partners,” stated Robert MacDougall, Executive Vice President, Sales & Marketing. “Now adding to this, EMEA requirements for electronic submissions beginning in 2009, has created even greater demand for our Submission Assurance™ services.”

Submissions Assurance™ key deliverables include but are not limited to the following:

1. Develop Submission Roadmaps & Project Plan
2. Ensure Agency Specific Document Formatting & Publishing
3. Develop CTD Structuring and Document Content Plan
4. Provide Submission Compilation and Life Cycle Management
5. Support and Manage Pilot Submissions
6. Perform as Regulatory Agency Liaison

“For companies looking to get off the ground right away at a reasonable, fixed price this is the perfect service”, stated Suren Dheenadayalan, Director of TAKE Solutions’ Submissions Services unit. “We are excited that through the expansion of our consulting team we’ll be able to offer this on a larger scale,” continued Suren Dheenadayalan. TAKE Solutions’ vast knowledge and experience with the global regulatory agencies, life sciences domain, and enabling technologies, makes us uniquely qualified to deliver high-value to our customers in this mission critical business area.”

[About PharmaReady™](#)

[PharmaReady](#) is a fully integrated web-based product and services solution suite including [Document Management](#), [Training Records Management](#), [Structured Product Labeling](#) and [eSubmission Services](#). PharmaReady is specifically designed for life science organizations where ease of installation, ease of use, Part 11 compliance, and affordability are the primary business drivers. The PharmaReady solution suite is designed specifically for management of SOPs, work instructions, training records, submission documents and all other documents within business areas regulated by the FDA. PharmaReady is a fully [21 CFR Part 11](#) compliant solution based on Microsoft Windows technology.
