FOR IMMEDIATE PRESS RELEASE

**TAKE Solutions, Inc. Names
Thomas S Guinter
Vice President, Clinical Information Systems**

Princeton, NJ - June 12, 2007 – TAKE Solutions, Inc., a leading provider of information system products, solutions and services to Pharmaceutical and Biotech Research companies, announced the appointment of Thomas S Guinter as Vice President, Clinical Information Systems.

Mr. Guinter will lead TAKE Solutions, Inc's technology and consulting efforts, supporting data standardization in Life Sciences while focusing on the implementation of Clinical Data Interchange Standards Consortium (CDISC) and Health Level 7 (HL7) standards.

“I am very pleased to be joining an organization committed to data standardization throughout the Life Sciences industry. I have been an active participant and contributor to CDISC and HL7 and am passionate about the opportunity to improve the flow of data supporting CDISC's mission ‘...to improve medical research and related areas of healthcare’ (www.CDISC.org). I am looking forward to continuing to help the industry achieve this goal at an organization that is equally committed to the same goal,” said Mr. Guinter.

Mr. Guinter brings a wealth of experience working with CDISC standards, with previous experience at both Pharmaceutical Research and Services providers. Mr. Guinter has been a member of the CDISC Submission Data Standards (SDS) team that developed the Study Data Tabulation Model (SDTM) since 2001, a co-lead for the SDS team since 2002, is an acknowledged principal contributor to the SDTM and previously trained the SDTM on behalf of CDISC, training over thirty two-day courses to over six-hundred students in six countries and ten US states in 2006 alone.

“We are excited that Mr. Guinter has chosen to bring his experience in CDISC standards to the TAKE Solutions, Inc. team,” said Mr. Kalyan Gopalakrishnan, Executive Vice President at TAKE Solutions, Inc. “Our teams at TAKE Solutions, Inc. are equally passionate about helping industry achieve improvements and efficiencies through implementation of data standards throughout the clinical trials lifecycle. Thomas' experience and passion with CDISC is a perfect match for our team's experience and

passion with technology and solutions for improvements in the data flow into warehousing and reporting technologies.”
