FOR IMMEDIATE PRESS RELEASE

PharmaReady Solutions Team Announces *eCTD: Hands-on Submissions Workshop*

Princeton, NJ – April 27, 2007 — Today, the PharmaReady Document Management & eSubmissions solutions team announced it will host an *eCTD: Hands-on Submissions Workshop* on June 27th and 28th, 2007 in La Jolla, California. This eCTD Submissions Workshop will discuss the current regulatory guidelines, how to submit your first eCTD, the best way to communicate with the agency, and will feature a hands-on session including a step-by-step guide to creating your first eCTD.

“There’s a great deal of confusion from organizations submitting CTDs as to how they should be electronically prepared and submitted” stated, Jay Johnson, Sr. Life Sciences Business Analyst. “Is their current practice up to standards? Do they need to change what they’re currently doing? We’ve developed this workshop not only to address companies’ concerns, but to show them, hands on, how to complete an eCTD submission”.

These one-day workshops will consist of four 1.5 hour sessions to include the following:

- Fundamentals of Electronic Submissions and the eCTD specification
- Creating your first eCTD Submission
- Communication with Agency
- Hands-on Workshop

“This workshop is imperative for any company looking to meet any form of regulatory compliance for eCTD submissions” stated, Suren Dheenadayalan, Director of Life Sciences Product Strategy. “It will answer the questions that Pharmaceutical, Biotechnology and CROs are struggling with right now”.

PharmaReady is a fully integrated, web-based DMS and eCTD Submissions Solution Suite. PharmaReady is specifically designed for regulated Life Sciences

organizations where ease of installation, ease of use, compliance and affordability are primary business drivers. PharmaReady is available in both on-site and ASP hosted implementations.
